

Regulatory Change Monitoring Backlog

Problem

Over 80 monitored regulations create a backlog of rule-change assessments.

Regulatory Requirements

Operational risk framework, regulatory monitoring.

Options Considered

A: Review by arrival order. B: Prioritize by client impact and deadline. C: Pause new assessments.

Decision

Prioritize by client impact and deadline.

Reasoning

Risk-based prioritization keeps critical compliance changes on track.

Risks

Lower priority delays, resource pressure, missed dependency.
